

iCivics Training

- **What's this about:** The overarching goal of iCivics' role in the GaFCP Civic Health Initiative is to reach youth in multiple systems, after school programs, community groups, etc.) cross all demographics, **engage them in learning more about how our democratic form of government works at the local, state and federal levels; and encourage their involvement in civic duties' that create healthier, more prosperous and resilient communities across Georgia.** The short-term goal is to train the adult leaders who impact youth in the purpose and benefits of the iCivics curriculum and encourage them to share this knowledge with the youth in their programs
- **Who:** 4th to 12th grade educators
Most of the iCivics materials are geared toward 4th through 12th grades with different topics/activities at different levels of sophistication. It's very flexible for individual levels, focus and interest.
